FLYINGBAR

FLYINGBAR

The new FLYINGBAR combines Indel B's well-established Smart Technology with a next generation Italian design, by using the energy saving cooling system.

It's the new wall-mount glass door minibar, the thinnest in the world and thanks to its versatility it allows many installation solutions, which implies a better functionality of the appliance and far greater accessibility for any guest, also in case of impairment.

Realized by the collaboration between Indel B and the Architect Massimo Mussapi (within the FLYIN GROOM project) who has re-defined the idea of the hotel room and flexibility, according to the principles of functionality and aesthetic quality, also by an innovative cutting-edge technology.

* MADE IN ITALY *

Technical data

Height	500 mm
Width	500 mm
Depth	200 mm
Product Class	20 lt
Voltage	230 V
Energy Efficiency Class	A+
Power	50 W
Technology	Compressor
Finishes	Glass Door

Print date: 10/11/2018

Features and specifications are subject to change without notice.
